

# rotacaster™

a revolution in motion

## rota-skate

The rota-skate provides a flexible solution for moving that heavier or unusual load. It can be used as an undercarriage for custom applications, as a simple alternative to a dollie, or inverted for pipe rolling or as a turntable base.

While providing the same advantages as the rota-dollie (refer to the product sheet) the rota-skate also provides these additional benefits:

### Combine to Conquer

Utilising our multi-mount component connected via 19mm (3/4") steel bars, any number of individual units can be combined and/or spaced to provide a suitable load platform with an appropriate load capacity for the task at hand. Each mount may be fitted with 2 or 3 wheels.

### Simple Custom Applications

You can easily fit your own custom load carriages e.g. drums, steel beam, pipe, panel etc., by simply using a connection plate with 1 (for articulating) or 2 (for fixed) 19mm (3/4") holes spaced to take the connecting bars. The size/spacing of the units and combination can be simply achieved by using longer and/or additional connecting bars.

### Inverted (Upside Down) Applications

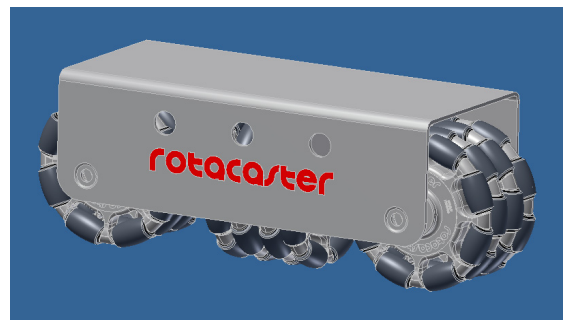

The rota-skates can be inverted for use as a transfer table, pipe roller, feed rail or turntable.

### Precision Positioning

The functionality of the multi-directional wheels ensure you can precisely position loads without working around or fighting a swivel offset.

### Direct Lateral (Sideways) Movement

Through the use of custom mounts, rotacaster wheels can be combined with some mounted at 90° to the others, to provide greater direct lateral movement capability under heavy loads.

(Transposed mount)

Product Code	Millimetres	Inches	Max Load	Wheels	Weight
RM2-2125P1	395mm x 600mm	15 1/2" x 24"	200 kgs / 440 lbs	4 x Double rotacasters	7.2kgs / 15.8lbs
RM2-3125P1	395mm x 600mm	15 1/2" x 24"	300 kgs / 660 lbs	4 x Triple rotacasters	8.2 / 18lbs
RM2-4125P1	395mm x 600mm	15 1/2" x 24"	400 kgs / 880 lbs	4 x Quad rotacasters	10kgs / 22lbs
RM3-2125P1	395mm x 600mm	15 1/2" x 24"	300 kgs / 660 lbs	6 x Double rotacasters	8kgs / 17.6lbs
RM3-3125P1	395mm x 600mm	15 1/2" x 24"	400 kgs / 880 lbs	6 x Triple rotacasters	9kgs / 19.8lbs
RM3-4125P1	395mm x 600mm	15 1/2" x 24"	500 kgs / 110 lbs	6 x Quad rotacasters	11kgs / 24.2lbs
