Rotacaster
PO box 866
The Junction NSW
Australia 2291

26th February 2009

ATT Bryan Southgate

Dear Bryan,

We have been using the rotacasters supplied by you for two years now and they have proved durable and easy to use. We have a challenging environment as trolleys are wheeled into our freezer at temperatures <-28°C and may stay there up to 7-days. Where other castors froze and were difficult to control your castors are able to cope with the environment without difficulty.

Thanks you for your follow-up service and interest in ensuring we got the result we required.

Kind Regards,

David Rose
Managing Director
